

SUMMER 2023

This summer our interactive *Velocity* exhibit demonstrated aspects of physics and the different way motion can be affected based on potential energy, kinetic energy, and gravity. Using golf balls, over 200 visitors explored five unique tracks that included hills, curves, loops, and spirals, each with its own exploratory lesson in motion. This exhibit attracted many camp groups who wanted to explore STEM (Science, Technology, Engineering, Math) concepts in a fun, hands-on way. Some of our fantastic groups we welcomed included Community Stepping Stones, Layla's House, Tampa Heights Junior Civic Association, and more!

The Sulphur Springs Museum and the *Velocity* exhibit was featured on Channel 8 WFLA on Daytime and live on Charley's World on Fox 13

Our Summer Helpers

If you visited us this summer, you would have noticed a few additional people at the museum. We had three teen museum associates and one USF intern who worked alongside us this summer. The teens, Jafet, Morris, and Kayvin, participated in paid experiential learning opportunities and developed skills in museum operations, visitor engagement, communication, marketing, and many other areas. Alex attends USF as a graduate student and assisted with group tours, educational materials, and our unique postcard project.

Our Next Exhibit: African Origins of Modern Health Care September 20, 2023 – January 6, 2024

Traditional medicine is the oldest form of a healthcare system that stood the test of time. It is an ancient and culture-specific method of healing, often using plant, animal, and mineral based medicines. This exhibit examines the roots of African medical practices in the Diaspora and in America.

Non-profits have unique challenges. We rely upon donations of all sizes, from the change in your pocket to much larger endowments, sponsors, and grants to fund our programs.

There are many expenses that come with bringing a program, event or exhibit to our patrons. A traveling exhibit costs anywhere from \$300-\$25,000 and this does not include shipping. We need your help.

YES, I want to help “preserve and celebrate the legacy of Sulphur Springs.”

Enclosed is my donation of:

\$25.00 \$50.00 \$100.00 Other_____
